Stanford Medical School
Stanford University

Palo Alto, California 94304

Dear Josh:

Luca says that money for travelling expenses is no problem and that those can be taken care of from Pavia.

I am verrey excited at the idea of a stay in Stanford, even if for a comparatively short period of time.

You, or may be Edna, should let me know which kind of visa I must apply for.

Sergio was here and we wrote a rather complete draft of the paper on TLD. I have been unable to make up my mind on the other paper and I would like to discuss with you many details of it.

Walter has just arrived. The Stanford-Pavia project seems to be really swinging.

Hoping to see you soon.

Ciao

Ciao

Cepari
